

SAVE RESOURCES · RESCUE THE PLANET

YOUR SUSTAINABLE SPECIALIST FOR
ELECTRONIC COMPONENTS

CENTRAL WAREHOUSE

From connectors to capacitors. We have it all in our warehouse, where over 700 million components are stored. Browse through our database. You may find what you can no longer get elsewhere.

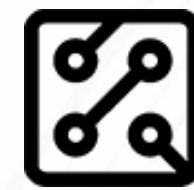

CENTRAL WAREHOUSE

- ✓ Global access to our worldwide database
- ✓ Overview of more than 130 billion components worldwide on our platforms
- ✓ Several million components in stock-processors, capacitors, LEDs, connectors
- ✓ Current and discontinued components-time horizon 10 years
- ✓ Quality check of all components internally with our own test equipment

Complete documentation

- ✓ Dynamic, in-house logistics-proximity to Munich airport
- ✓ On the market for over 30 years

CONSIGNMENT PAKET

The all-in-one package. Reduce costs, increase efficiency, conserve valuable raw materials. We ensure that your profits increase and that we all do something good for the environment. Sit back and let us do the rest for you.

CONSIGNMENT PAKET

- ✓ All-in-One-Package
- ✓ Detect supply bottlenecks early, prevent supply bottlenecks
- ✓ Reduce costs, increase efficiency, conserve valuable raw materials, save energy
- ✓ Access to our B2B platforms with millions of buyers & suppliers
- ✓ Acceptance & marketing of your surplus goods, feeding into the economic cycle
- ✓ Review and analysis of your inventory by our experienced team
- ✓ Assumption of all logistic expenses
- ✓ Online-customer access grants an overview of all revenues in real time

CONSULTING & SUPPLY MANAGEMENT

We analyze the world of electronic components. We come to you with over 30 years of experience. We advise you in the areas of supply chain optimization, source auditing and present you with concepts to achieve maximum efficiency in a sustainable and sensible way.

CONSULTING & SUPPLY MANAGEMENT

- ✓ Over 30 years of experience in supply chain analysis
- ✓ Personal consulting and analysis of your "supply chain needs" based on vertical and horizontal supply chains
- ✓ Evaluation & central summary of all available data
- ✓ Optimization & auditing of your supply sources
- ✓ Conceptual improvement & evaluation of existing suppliers
- ✓ Increase of efficiency & cost reduction
- ✓ More sustainability on different levels–energy, CO2, raw materials

INTELLIGENT SOURCING

With global access to our worldwide networked database, we have an overview of more than 130 billion components worldwide. Whatever you are looking for, whether discontinued or current, we will find it for you. And we have been doing so for over 30 years.

INTELLIGENT SOURCING

- ✓ Direct optimization & analysis of the BOM & supply chain
- ✓ Global access to our worldwide networked database
- ✓ Networking between customers and buyers worldwide
- ✓ Access to over 130 billion components
- ✓ Checking of supply chains for fake & scrap goods
- ✓ Targeted capture of potential cost & resource savings
- ✓ Acceleration of internal (customers) and external (suppliers) procurement processes
- ✓ Transparent quality testing of all components in the company's own testcenter
- ✓ Optional use of the testcenter for our customers
